

amerimold 2021

SEPTEMBER 21-23, 2021 | DONALD E. STEPHENS CONVENTION CENTER | ROSEMONT, IL

Press Release – Amerimold 2021 Announces Extra Day Added To Schedule

In an effort to provide additional value to exhibitors and attendees, Amerimold 2021 has added an additional day to its schedule. The new dates for the show will be September 21-23, 2021. It will still take place at the Donald E. Stephens Convention Center in Rosemont, IL.

For several years, exhibitors and attendees have inquired about extending the runtime of North America's premiere moldmaking and molding event. Gardner Business Media, the organizers of the Amerimold show, believe that 2021 is the perfect time to increase the show's runtime.

"As 2020 unfolded, we witnessed the strength and resilience of North America's moldmakers, injection molders, and OEMs," said Allison Miller, Director of Events for Gardner Business Media. "Moldmakers and molders really rose to the challenge during our battle with the COVID-19 pandemic, and we wanted to give them the three-day event that properly celebrates their contributions to the North American manufacturing renaissance and provides exhibitors and attendees more time to network, experience technology and learn."

Amerimold, which has been running since 1999, connects thousands of the top owners, management, production personnel and engineers involved in the complete lifecycle of the design, manufacture maintenance and repair of a mold. There is no other event in the United States that puts the entire lifecycle of the mold on display on the show floor. The \$8 billion mold manufacturing market will be showcased by the experienced exhibitors, free Tech Talk educational series, in-booth Technology Demonstrations, and a one-of-a-kind sourcing component that connects OEMs with tier suppliers exhibiting and attending Amerimold.

Amerimold 2021 will be co-located with two plastics-focused, content-rich programs that will provide additional value to those attending the show. Molding 2021 will feature industry leaders discussing the latest developments and various molding processes, equipment, materials, tooling and management techniques that are driving the industry, with a special emphasis on adding value to your business. In addition to Molding, Gardner Business Media's Extrusion Conference will showcase a robust conference program and their loyal exhibitor base.

Registration for Amerimold 2021 will open next year. Further event details are available at www.amerimoldexpo.com.
